STAFF ANALYSIS AND RECOMMENDATION:

Authority:

Public Resources Code sections 6005, 6216, 6301, and 6503.5; California Code of Regulations, Title 2, section 2000, subdivision (b).

Public Trust and State's Best Interests Analysis:

The subject marina and water-related businesses directly promote public trust needs. The subject commercial marina facilities accommodate, promote, and foster the public's need for essential maritime services and the public's enjoyment of the State's adjacent waterways. Recreational boating is a water-dependent use that is generally consistent with the common law Public Trust Doctrine. The California Legislature has identified private recreational boating facilities as an authorized use of public trust land (Pub. Resources Code, § 6503.5).

The subject fuel facilities are consistent with the common law Public Trust Doctrine because it is used to aid in water-dependent commerce and navigation. The facility sells fuel to the general boating community of the Sacramento Delta and beyond. The commercial fuel docks provide a necessary and convenient service to regional boaters thereby facilitating public navigation, fishing, and water-related recreation. The proposed new lease will allow for the continued operation of the marina and appurtenant facilities.

Several of the businesses within the proposed lease area are dependent on being on or near the water, such as the canvas shop, boat detailing facility, and boat rentals. Visitor-serving facilities such as the restaurant, bar, banquet room, general store, and retail store are places of public accommodations, facilitating broad public access to public trust lands, and therefore enhance the public's enjoyment of these lands set apart for their benefit.

The adjacent upland is privately owned and developed as a campground. The subject structures are privately owned and maintained and used for commercial use. The campground is available for use by the general public.

CALENDAR ITEM NO. **C29** (CONT'D)

The bank protection is consistent with the common law Public Trust Doctrine because it serves as an aid to navigation by providing reinforced structural support to the banks of the waterway and limiting potentially harmful erosion of the bank into the waterway. The bank protection also confers benefits to the upland owner by ensuring sufficient sub-lateral support to the adjoining properties.

The proposed lease includes certain provisions protecting the public use of the proposed lease area, including a limited lease term of 25 years, and a non-exclusive use provision. The marina and appurtenant facilities have existed for many years at this location; they do not significantly alter the land, they do not permanently alienate the State's fee simple interest in the underlying land, and they do not permanently impair public rights. Upon termination of the lease, the Lessee may be required to remove any improvements and restore the lease premises to their original condition. Based on the foregoing, Commission staff believes that the marina facilities and water-related businesses, will not substantially interfere with public trust needs, at this location, at this time, and for the foreseeable term of the proposed lease and the bank protection is consistent with the common law Public Trust Doctrine.

The proposed lease requires the Lessee to insure the lease premises and indemnify the State for any liability incurred as a result of the Lessee's activities thereon. The lease also requires the payment of annual rent to compensate the people of the State for the occupation of the public land involved. For all the reasons above, Commission staff believes the issuance of this lease is consistent with the common law Public Trust Doctrine and is in the best interests of the State.

OTHER PERTINENT INFORMATION:

1. The Applicant/Assignor owns the uplands adjoining the Lease Premises. The Assignee will own the uplands adjoining the Lease Premises upon the close of escrow, but not later than September 30, 2016.
2. On February 5, 2007, the Commission authorized an assignment of Lease No. PRC 4194.1, a General Lease – Commercial Use from Tower Park Marina Investors, LP, to Kampgrounds of America, Inc. (KOA). Included in the assignment were eight subleases which operated businesses within the lease premises. The lease will expire on December 31, 2023. On December 12, 2012, KOA submitted an application for a new lease for the

CALENDAR ITEM NO. **C29** (CONT'D)

impending sale of the property. KOA is now requesting termination of the existing lease and issuance of a new lease.

3. KOA's lease requires a minimum annual rent payment of \$46,897, against a percentage of gross income from the sublessee's businesses operating on the Lease Premises. KOA has been making annual payments based on their understanding of the lease. However, upon review of the annual reports of gross income, Commission staff determined that KOA had not correctly paid rent or reported gross income in accordance with the lease provisions. Staff informed KOA of discrepancies in their percentage of gross reporting and has been working with the Lessee to reconcile the discrepancies. KOA has agreed to pay compensation in the amount of \$106,932 to reconcile additional rent owed for the period from January 1, 2011 through June 28, 2016.
4. On May 6, 2015, Stockton Delta Resort, LLC, submitted an application for the assignment of the lease and approval of the five existing subleases beginning upon the close of escrow, but not later than September 30, 2016.
5. This action is consistent with Strategy 1.1 to deliver the highest levels of public health and safety in the protection, preservation, and responsible economic use of the lands and resources under the Commission's jurisdiction.
6. Termination of lease, assignment of lease, and approval of subleases are not projects as defined by the California Environmental Quality Act (CEQA) because they are administrative actions that will not result in direct or indirect physical changes in the environment.

Authority: Public Resources Code section 21065 and California Code of Regulations, Title 14, section 15378, subdivision (b)(5).

7. The staff recommends that the Commission find that issuance of the lease is exempt from the requirements of CEQA as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, Title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084 and California Code of Regulations, Title 14, section 15300 and California Code of Regulations, Title 2, section 2905.

CALENDAR ITEM NO. **C29** (CONT'D)

8. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code section 6370, et seq., but such activity will not affect those significant lands. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
